Lenovo Partner Advantage Program

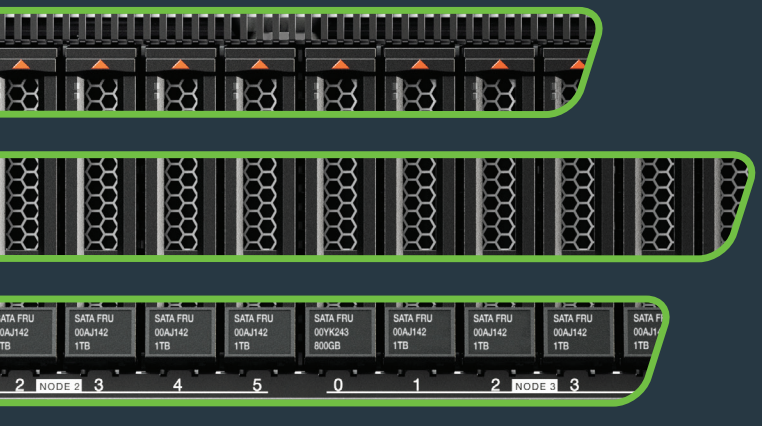
Hyperconverged Infrastructure tailored for SMB-sized Businesses

MEETING THE IT NEEDS OF THE SMALL AND MEDIUM-SIZED BUSINESS

Wouldn't it be great if a single IT solution could:

- Simplify IT to make it as easy to consume as public cloud?
- Reduce the cost of purchasing, installing, and managing infrastructure?
- Streamline backups and enable disaster recovery?
- Run your full set of applications without dedicated or specialised hardware?
- Increase application availability?

Lenovo HX 2000 Series appliances powered by Intel® Xeon™ processors and Nutanix Xpress software do all this and more, elevating IT to focus on adding business value.



Visit lenovo.com.au/lpa or contact your technical consultant to find out more about the **NEW Lenovo HX workload size bundles with Nutanix Xpress edition software** and how it can provide value to your business.
