## THINKSMART HUB 500

### An All-In-One, purpose built device for simplified meetings.

Say hello to ThinkSmart Hub 500. Easy to deploy and use, this all-in-one, purpose-built Skype Room Systems device is the key to more efficient meetings. Start on time, every time with one tap of your finger. Hear what everyone has to say, loud and clear. Download the [Deployment Guide](#) and see the difference this makes to your productivity-and bottom line.

#### Fast. Simple. Easy.

- Fast start of meetings without the usual connection and sharing hassles
- Simple and powerful Skype for Business gives best control of sharing and participation
- Easy dial out from landlines using the built-in PSTN functionality

#### Clear. Rich. Superior.

- Clear speech for remote participants even when you speak from anywhere in the room
- Rich and powerful sound for the whole room with Dolby® Premium tuned speakers
- Superior connection stability for everyone because it's a purpose built device

#### Informative. Practical. Productive.

- Informative calendar shows current and upcoming meetings and participant roster
- Practical touches such as Skype status indication through 3-colour LED & meeting timer
- Productive features for meetings include spotlighting of participants and presenters

## Lenovo ThinkSmart Hub 500 Resources Package
